## Remainders Game

Number of players: 2, 3, or 4
Rules:

- Take turns placing a mark on one of the numbers on the board and tossing the dice. Divide the numbers. For example, if you choose 92 on the game board and toss a 3 on the dice, you then write the problem $92 \div 3=30 \mathrm{r} 2$
- Your score is equal to your remainder.
- After all the numbers on the board have been covered with markers, find the sum of you remainder scores. The winner is the player who has the greatest total score.

| 132 | $\mathbf{5 1}$ | $\mathbf{5 3}$ | $\mathbf{4 6}$ | $\mathbf{1 8}$ | $\mathbf{4 5}$ |
